

Orbital 3400X Off-the-Shelf External Reference C-Band LNB

This external reference C-band LNB delivers excellent phase noise and local oscillator (LO) stability. It operates from 3.40 to 4.20 GHz, provides 60 dB of gain and delivers a noise temperature of 25K. Built for professional SATCOM and available in 500, 600 and 800 MHz bandwidths, this high-quality off-the-shelf LNB is perfect for most C-band applications – particularly where rain fade is a concern.

- Professional C-band LNB at an entry-level price
- External 10 MHz reference
- Superior noise figure and gain flatness
- Excellent choice to mitigate rain fade
