

Orbital 3300 Enhanced C-Band PLL LNB

This C-band Phase Locked Loop (PLL) LNB is an off-the-shelf unit that has been enhanced to provide superior gain flatness and input/output VSWR. It delivers bandwidth of up to 800 MHz in the 3.40 to 4.20 GHz frequency range, offers options for gain variation, and works reliably in wet and rainy conditions. This LNB can be customized to meet demanding and exacting standards – and is a great choice for commercial and military SATCOM applications.
